

## **ABSTRACT**

### **ELASTOMERIC COMPOSITION**

**[00112]** This invention provides for a composition including an elastomer having at least 30 mol% of isobutylene; carbon black having a surface area of less than 30 m<sup>2</sup>/g and a dibutylphthalate oil absorption of less than 80 cm<sup>3</sup>/100 gm; and polybutene oil having a number average molecular weight greater than 400.
